

## Release Notes

Application: B2QScan v2.1.7577

Operating systems: iOS, Android

Release Date: Android – 07Dec2018, iOS - est 3-5 days after pending Apple approval

Note Date: 07DEC2018

Note Version: 2018.09

### Overview:

- Enhancements to built-in messaging capability
- Fixes synch delays that may occur when a location scans a VIN with previous test history at another location, or that may occur due to special character inputs.

### End-User Impact:

- Improved app performance.

### Support Impacts:

- Less reports of synch delays

**Notes:** B2Q highly values the feedback from all customers and is continually seeking opportunities to improve customer satisfaction, app performance and ease of use. Please continue providing valuable feedback so that we may continue to improve your user experience and customer satisfaction.
